

i Series, Compact Sheet Metal Cutting Machine

Explore where functionality meets space-saving.

Big things come in small packages

COMPACT, FLEXIBLE DESIGN

i series increases productivity of your production line without requiring much space. The system has been designed to take up as little floor space as possible.

ECO-FRIENDLINESS

The fully enclosed design leads to more economical processing and faster performance, with a much lower power consumption.

EFFICIENCY

i series' compact system demonstrates high productivity thanks to Bodor's intelligent functions, as they optimize material flow, boost output, and increase the operating safety of the production line.

Active obstacle avoidance system

BodorGenius uses sensors and algorithms to detect potential obstacles like tilting parts and automatically avoids a potential collision.

Anti-burning mineral casting plate

The modular anti-burning mineral casting plate auto-separates slag for lower maintenance, and offers durable, easy-to-replace benefits.

Overheating offset

To stabilize laser beam focal point during the cutting process, this function counteracts the adverse effects of overheating by adjusting time and temperature. It is especially applicable to cutting thick sheet metal.

Lightning piercing

The technology offers rapid, precise piercing with reduced time. It features monitored processes for efficiency, focus adjustment for seamless piercing, and integration with BodorGenius.

Intelligent remnant layout

With uploaded pictures, the machine can automatically finish positioning and nesting, achieving material utilization rate at maximum.

Technical specifications

	i5	i6	i7
WORKING AREA (mm)	1000×1500	2000×1000	3048×1524
LASER POWER	1.5/3/6kW	1.5/3/6kW	1.5/3/6/12kW
POSITIONING ACCURACY (mm/m)	±0.05	±0.05	±0.05
RE-POSITIONING ACCURACY (mm)	±0.03	±0.03	±0.03
MAX. ACCELERATION	1.5G	1.5G	1.5G
MAX. LINKAGE SPEED (m/min)	91	91	91

World's No.1 in Sales Volume for 5 Years

2019 – 2023

Bodor has consistently held the top position in global sales volume for five consecutive years. In 2024, we are poised to continue our upward trajectory, solidifying our position as a market leader and surpassing our previous achievements.

5 Years of Premium Warranty

For three Bodor core components

Bodor's integrated approach reduces failure rates, ensuring quality in transportation, delivery, and maintenance of three Bodor core laser components. Simplified operation, adjustment, and maintenance streamline processes, while expert machine setup and training facilitate smooth equipment adaptation for customers.

BodorThinker Control System

BodorPower Laser Source

BodorGenius Laser Head

Streamline your integration and quality assurance.

INTEGRATED PRODUCTION

Unified origin for stable and efficient quality

INTEGRATED DESIGN

High industrial integration, perfect system compatibility

INTEGRATED TESTING

Rigorously tested for ultimate performance

INTEGRATED DELIVERY

Package and shipped as a whole for enhanced quality
